### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **In the claims**

In **claim 6**, line 3, please **delete** "in effect as of the filing date of the present application";

In **claim 13**, lines 2-3, please **delete** "in effect as of the filing date of the present application" and in lines 3-4, please **delete** "in effect as of the filing date of the present application" (delete both instances of the phrase);

In **claim 21**, line 3, please **delete** "in effect as of the filing date of the present application"; and

In **claim 38**, lines 10-11, please **delete** "in effect as of the filing date of the present application"

The statement on page 14 of Applicant's response filed 08 February 2008 directed to limiting the claimed SFF and GBIC standards to the SFF and GBIC standards in effect as of the filing date of the instant application is sufficient to overcome the 35 U.S.C. 112 rejections of claims 6, 13, 21, 38-46, and 50-52. The corresponding phrases have been deleted from the claims since they are not necessary in light of Applicant's statement in the response.

*Allowable Subject Matter*

2. **Claims 1-53** are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see pages 13-17, filed 08 February 2008, with respect to the 35 U.S.C. 102 and 103 rejections of claims 1-53 have been fully considered and are persuasive. Those rejections of the claims have been withdrawn. Also, the statement on page 14 of Applicant's response filed 08 February 2008 directed to limiting the claimed SFF and GBIC standards to the SFF and GBIC standards in effect as of the filing date of the instant application is sufficient to overcome the 35 U.S.C. 112 rejections of claims 6, 13, 21, 38-46, and 50-52.

The prior art, including SFF Committee ("SFF-8053 Specification for GBIC"), Aronson et al. (US 2002/0149821 A1), Gilliland et al. (US 2002/0181894 A1), Keeyill et al. (US 6,359,938 B1), Baltz et al. (US 6,469,906 B1), and Levinson (US 5,019,769 A), does not specifically disclose or fairly suggest a system including the combination of all of the elements and limitations recited in claims 1-53 (and including all limitations of any respective parent claims), particularly including an optoelectronic module, comprising:

a housing;

an optoelectronic component substantially disposed within the housing; a controller IC disposed within the housing and including a serial digital interface configured to facilitate communication, between the optoelectronic module and a host, of diagnostic parameter information concerning the optoelectronic component; and

a pinout arrangement comprising:

a pin array having a plurality of pins, at least some of which are in communication with the controller IC; and

a pair of pins in communication with the serial digital interface, each of the pair of pins also being configured and arranged for communication with the host by way of a corresponding interface line.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
